

Virtual Young Teen Asthma & Wellness Camp

**Join us for Summer 2024! School-based and all-virtual models,
Leader-in-Training session for older teens!**

In partnership with *AllerVie Health*, Virtual YTA&WC helps teens ages 11-15 learn how to better manage their asthma and incorporate healthy habits into their daily lives. Our program makes asthma education fun through the use of games, music from *Asthma Blues*®, cooking, crafts, technology, and more. Thanks to our generous supporters, **campers participate at no cost** to their families.

Camp dates (tentative):

Leader-In-Training (high school age leaders): Monday June 3 (in-person trainings at various locations across the state)

Virtual Camp 1: June 10-14, 2024

Virtual Camp 2: July 8-12, 2024

School-based Camps: TBA for participating schools
